

Are you backing up your Pictures and your Critical Data (email/word/excel/quickbooks/etc...)?

If not you need Streamline Computers "MANAGED" Backup Solution For less than \$1 a day

We manage and monitor your daily backups to ensure you that all of your files are being securely backed up every day so you never have to worry about them.

FACTS:

Many people sign up for offsite backup solutions like Carbonite or Mozy, they pay for it, install it and forget about it. The problem is when they have a hard drive crash and need to recover their files, then they find out that Carbonite or Mozy has had an issue and stopped backing up months ago without them ever knowing about it. This causes them to lose all of their pictures and data.

This is the biggest problem with an UN-MANAGED backup solution.

Streamline Computers "MANAGED" Backup solution is a managed solution that we monitor daily and make sure that every day your backups are happening. If an error occurs, we contact you to remote into your pc to investigate and correct the problem. We never look at your individual files, they are all encrypted and stored in the data center.

Why pay Streamline Computers to MANAGE your backups?

Table with 2 columns: Pros, Cons. Rows include: You never have to worry about your data / backups, You receive discounts on all support and service, You get FREE phone support, You become a VIP client.
